PROCLAMATION TO ALL CITIZENS

The need for assistance to those who have suffered from the recent terrible floods in the United Kingdom and in Northern Europe is great.

The Canadian National European Flood Relief Committee, representative of all Provinces, in launching an unlimited appeal for funds and you are invited to contribute.

Contribution may be made through Branches of all Chartered Banks or directly by the purchase of Postal Money Orders at the Post Office, made payable to Canadian National European Flood Relief Committee. Receipts will be issued to those making donations, which will be valid for income tax purposes.

I am sure it is not necessary for me to emphasize the need for assistance in this disaster, and I feel that all citizens will co-operate to the fullest extent.

Chow Mein Supper Is Big Success

The Japanese Anglican and United Church groups combined effort and talents recently to sponsor a Chow Mein Sweet and Sour supper with all kinds of pie, hot dogs and potatoe chips being added to the menu with over 500 people being served in the Legion Memorial Hall.

Before the patrons left the hall they had the opportunity to stop at the cooking and sewing tables to select items to take home.

Those helping to make the affair such a success were: Mrs. Steve Shigematsu, Mrs. Kamitomo, Mrs. Nishida, Mrs. Oka, Mrs. Sugiyama, Mrs. Takahashi, Mrs. Endo, Sally Moriyama, Mrs. Tsumagari, a group of girls from Coaldale, Mrs. Swedish, Mrs. Dainard, Mrs. Lund, Mrs. Wolford, Mrs. McKean, Mr. and Mrs. Bill Atwood, Mrs. Allan, Mrs. Dahl and Mrs. Helgeson. Special thanks also go to the Mercantile and the Broadway for their donations.

Alberta Government Endorses Flood Relief Fund

Hon. E. C. Manning, Premier of Alberta, today called upon all Alberta citizens to contribute to the European Flood Relief Fund.

Mr. Manning, in announcing the Alberta Government's support of the fund, said that money is needed urgently to relieve the distress of thousands of people made homeless by the storms and flood which struck England, The Netherlands and other European countries early in February.

"The people of Alberta gave unselfishly to the Winnipeg Flood Relief Fund in 1950 but the present need is greater", the premier said. "The damage, distress and grief caused by the European floods are overwhelming and require a considerably greater effort than that made to help the people of Winnipeg."

He said the urgent need for flood relief funds made it impractical to set up a national organization to canvass for funds. Contributions for flood relief could be made to all branches of chartered banks in Alberta as well as post offices. Similar arrangements have been made for express money orders. Receipts which will be valid for income tax deductions will be issued.

Premier Manning requested the mayors and Reeves of all Alberta municipalities to announce the existence of the Flood Relief Fund and urge the public's support. He emphasized that the appeal for funds is not a Red Cross appeal but the Canadian Red Cross will be the administrative arm of the committee for the distribution of assistance through its International Red Cross Channels.

The Ted Meeks, Glen Meeks, Morris Holts, Gerald Harkers, Murray Holts, Wallace Wildes, Mirza Packs, Bruce Galbraiths and Mrs. Virginia Rolfsen enjoyed a very delicious turkey dinner Saturday evening at the home of Mr. and Mrs. Jack Kenney.

After the dishes were cleared the Rook cards were brought out and a few hands played. VI won the prize for the Ladies' High Score as well as the Travelling Prize, and Mirza made the men's High Score. The consolation prizes were taken home by Bruce and Virginia.

Mrs. Elmo Christensen recently enjoyed a three day visit in Calgary with her daughter, Barbara, who is working as comptometer operator at Great West Distributors. She is also very enthused about the activities of the Relief Society there; while attending their Work Meeting she learned how to do copper work which she found very interesting.

Feeling Sorry For Flood Victims Doesn't Help Much

Stunned, shivering, homeless, the victims need blankets, hot foods, shelter, warm clothes, first aid.

And after the event's happened is no time to start "taking up a collection", no time to start organizing assistance.

Floods, fires and other major catastrophes occur with devastating suddenness . . . but

YOUR RED CROSS IS ALWAYS READY

An Appeal To All!

The Canadian National European Flood Relief Committee under the chairmanship of His Excellency the Governor-General has launched an unlimited appeal for funds to help relieve the distress of flood sufferers.

There will be no national canvassing organization. In- dividuals, organizations and business firms are urged to make their donations through Branches of all chartered banks which will issue receipts valid for income tax purposes. All Post Offices will accept direct contributions by Postal Order, and similar arrangements have been made for Express Money Orders.

This is not a Red Cross appeal, but the Canadian Red Cross will be the administrative arm of the Committee for the distribution of assistance through its International Red Cross Channels.

At present the appeal is for funds only. All requests for assistance from the fund will be checked by Red Cross Soci- eties, Foreign Government Agencies and Canadian Embassies Overseas.

The need is great. Your generous help is urgently requested.

ROOM FOR IMPROVEMENT

There are too many weed seeds go- ing into the ground by way of the seed drill. R. L. Pharis, Supervisor of Corp Improvement, Alberta Department of Agriculture, report that only one of every four farmers in Alberta is sowing grain that is fit for seed. This has been shown during the past four years by samples taken from seed drills at seeding time and graded according to Seeds Act standards. Most of the seed was rejected because of weed seed content.

There is no excuse for sowing poor seed, says Mr. Pharis. Good seed is available, and most farmers are not too far from a good cleaning plant. If registered or certified seed is desired, orders can be placed with the nearest elevator agent. Following a recent announcement by the Canadian Wheat Board, farmers whose quota is still under 15 bushels may now make over- delivery of not more than 100 bushels of wheat, oats or barley, to apply on 50 bushels or less of registered or cer- tified grain. Particulars should be ob- tained from elevator agents and advan- tage taken of this means of improving the quality of seed sown.

Notes From Your District Home Economist

MISS LILA ENGBERG

PEAS AND BEANS

Navy bean, kidney, black, red or pinto beans and rice are actually vegetables but they should never take the place of vegetables in meals. These beans take the place of meat in a lower cost diet and are a change from meat, but they sadly lack the vitamins that vegetables like carrots, string beans, snap or green beans, cabbage and other green and yellow vegetables give us.

Rice, macaroni and spaghetti may take the place of potatoes occasionally, though lack most of the vitamins that potatoes have. So if you have rice or macaroni, don't serve potatoes with it, but do serve another vegetable and meat. If you have navy beans or any of the others mentioned above, don't serve meat with them, but have another vegetable and potatoes. Restaurant cooks could serve more appetizing meals by taking these things to heart.

FREE PAMPHLET

The Province's Department of Agriculture publishes a pamphlet—"Use Your Peas and Beans"—filled with recipes such as Bean Stew, Bean Sandwiches, Chili Con Carne, and so on. These you may have by writing to me in Lethbridge.

BENEFITS OF HOME FREEZERS

The Home Freezer gives a family an advance in living standards, but it is costly. There are benefits of course and here are some:

1. Saves shopping time and energy.
2. Food is on hand when you need it.
3. Save preparation time by making two or more meals and several baked items at one time.
4. Storage for leftovers.
5. Can buy in quantity when prices are low.
6. Fruits and vegetables are easily packaged and stored, and the natural flavor, color and food values are well preserved.

A Kitchen Quickie

Here is a hint which will speed your baking. Wash all your raisins when you buy a new package. Dry them and store them in a tight container so that they are all ready to use whenever you need them.

EXPERIMENTAL STATION WEEKLY LETTER

Forage Crops For 1953

A. Johnston - Range Specialist

In planning a cropping program for 1953 many individuals will be thinking of seeding down at least some land to forage crops. A few comments on the particular place of various forage species map therefore be useful at this time.

For high yielding irrigated pasture, a mixture composed of Bromegrass 7, Creeping red fescue, Orchard grass 7, and White Dutch Clover 2, will be found very satisfactory. Properly established and under good management, this is an excellent permanent pasture producing succulent forage throughout the season.

For alfalfa hay production, the variety Ladak should be purchased since it possesses some resistance to bacterial wilt. Grimm has no resistance and may not survive more than three years while Ladak may be expected to last for about five years.

Various forage crops are available for specialized purposes. Red canary grass, for example, can be sown on areas that are subject to long periods of spring flooding and which are not alkaline. On seepage areas where alkali is present, tall wheatgrass will be found satisfactory. This is a tall growing, coarse perennial which makes fairly good pasture and which also makes a reasonably good quality hay if cut just at heading.

Tall wheatgrass should be sown at a rate of from eight to twelve pounds per acre and may be drilled up to one inch in depth. Spring seeding is satisfactory but the grass can also be sown during early or late fall. This grass is quite resistant to spring flooding.

Sweet clover is also fairly resistant to alkali but cannot stand much flooding. It is worth consideration on alkaline areas which are not too wet.

In the drier areas created wheatgrass or Russian wild rye are still the only recommended species. Both are very drought resistant fairly high yielding under dry conditions and provide both early spring and late fall pasture.

DODGE CORONET HAS WORLD'S MOST MODERN V-8 ENGINE

The Dodge V-8 engine in the Dodge Coronet models is of a design generally recognized as the ideal for power and economy. It brings you the triple power advantages of "dome-shaped" combustion chambers... short stroke design... high lift lateral valves. And it easily produces 140 H.P. on regular grade gas. Drive the new Dodge Coronet. Thrill to its surging power and its easy "no-shift" driving.

For new driving thrills—get behind the wheel of this new Dodge. You'll realize that only a brand new approach to automobile design could have achieved such amazing riding and driving qualities.

Starting with a new, much wider and lower frame—for greater stability—Dodge engineers have cleverly redesigned the suspension to make the famous Oriflow ride even smoother and steadier. The result is a car which hugs the road... handles surely... and takes the curves in stride. And they have achieved a livelier performance by reducing fuel-consuming weight.

But don't take our word for it. Come in today and road-test the new Dodge for yourself. You'll be amazed.
